OFFICIAL PAPER OF THE CITY.

Jamesville Daily Gazette.

VOLUME 7.

JANESVILLE, WIS., TUESDAY, MARCH 1, 1864.

NUMBER 302.

This edition of the GAZETTE is one of the largest weekly papers in the State. It is published in the Daily to call attention to the fact that we are enabled to furnish a paper of unsurpassed excellence. We shall give in each number a correct review of the markets, and make the paper a complete index of County, State and general news.

Union State Convention.
Our readers will notice the call of the Union State Committee, published to-day, for a State Convention, to be held at Madison on the 20th of this month, for the purpose of choosing delegates to the National Convention at Baltimore. The Convention is called at an early day, and it is desirable that the primary committees should not promptly in calling their several ward and town caucuses.

STATE NEWS.
Hon. A. J. Turner, member of Assembly from Portage, Columbia Co., has been at his home for a number of days, dangerously ill. He is much better now. Madison is out of the draft under the call for 500,000.—Dr. A. Van Nostrand, Surgeon of the 4th regiment, has resigned his position and come home.—The Ripon Commonwealth, of Feb. 26, says, "after being sealed up about two weeks, the Madison division of the Milwaukee & St. Paul Railroad has again resumed business."—The Wood County Reporter says the Postoffice hitherto known as Frenchtown is hereafter to be known as Port Edwards, by order of the P. M. General. John Edwards is appointed Postmaster. The same paper, of Feb. 25th, states that by order of the P. M. General, the Postoffice at Saratoga is discontinued from this date. All mail matter designed for that office should be deposited in the Grand Rapids Office, as per order received by Mr. Phillips from the Department.—A Fruit Growers' Association is to be formed in Wood County.—Appleton, by the decisive majority of 185 has voted to raise \$5,000 to aid in clearing that place from the draft.—Messrs George Williams & Co., of Milwaukee, have contracted for the erection of a large addition to their stove foundry near the harbor. The addition is a large moulding shop 90 by 35 feet. The superstructure is to be of wood, the walls being lined with brick.—An aged German, of Milwaukee, committed suicide by hanging himself in that city, about 9 o'clock Monday morning.

WISCONSIN APPOINTMENTS.—In the Washington Chronicle of Feb. 24th is a long list of appointments by the President, "by and with the advice and consent of the Senate." The following are the names of the persons from this State:
Additional Paymaster in the Volunteer force.—Champion S. Chase, of Racine, and Geo. B. Congdon of Beaver Dam.
Additional Paymaster in the Army of the United States.—Joseph Harris, Horace H. Hunt, Henry Lines, Fenton F. Stevens and Levi Sterling.
Assistant Quartermaster, with rank of Captain in the Volunteer Service.—Calvin Baker, Jas. T. Conklin, A. G. Darwin, and Frank W. Oakley.
Assessor of Internal Revenue.—Lute A. Taylor.
The "loyal" party is now styled the "secessionist party," or, in other words, the amalgamation party, from their inevitable tendency to mix and confound the races of black and white.—*Madison Patriot.*
Judging from the blushing process among the slaves of the South, which has been going on for a long series of years, the "loyal" party must have acquired the name which rightfully belongs to the *Patriot's* rebel friends of the South. You can ask the Milwaukee *See Hate*, Mr. Patriot, if such is not the case.

Nor Postponed.—The telegraphic correspondent of the Chicago *Tribune*, under date of the 29th ult., says:
"In consequence of the non-action of the Senate to-day on the House bill, extending volunteer bounties to the first of April, and an evident indisposition to concur, the order postponing the draft to the first of April was rescinded."
GENERAL GRANT has not declined to be a candidate for the Presidency, as asserted by the *Lincolnton*.—*Madison Patriot.*
Don't lay the flattering unction to your soul that Gen. Grant will be fool enough to accept a nomination from the dead Democracy. It is too good a stratagem to commit suicide with his eyes open.

SOCIETY.—Mr. Sumner has reported a bill to the Senate for the repeal of the Fugitive Slave Law. Every man in the nation will say amen. Those who would still like to play "dodge" longer, will naturally set up a howl against Mr. Sumner.

Accidents.—A dreadful accident happened to Mr. Harvey Graves of this place two weeks ago to-day. He was loading logs in theinery and while trying to bind a cable of logs on his sled, holding a chain with a "grub hook" in his hands, the blocking slipped from under the log and as it started to roll off, the hook caught the thumb of his left hand, and finding that he could not extricate it, braced himself and the thumb from the first joint was slowly torn off, carrying with it three curls, one measuring 12 inches, another three inches, and the other 5. The agony must have been excruciating at the time, and for a week since he has been unable to rest day nor night with the pain. Since the accident he has lost 22 lbs in weight. He has the thumb with the curls attached preserved in spirits.

A young man by the name of Ed. Davis, while at work in Ketchum & Stebbins' Foundry, had one of his hands badly crushed in some of the machinery.—*Appleton Crescent.*

The receipts of the Northern Ohio Sanitary Fair, now in progress in Cleveland, were for the first three days, in sales of tickets and cash donations, upward of \$15,000. It is thought that the net profits of the Fair will exceed \$100,000.

Letter From Capt. C. W. Baker.

(From Gen. 14th Reg. Colored Troops.)
CHATTANOOGA, TENN. Feb. 22, 1864.

DEAR PARENTS:
The 1st Battalion 14th C. T. left Bridgeport Feb. 11th on the march for this place. The men were in heavy marching order, carried their knapsacks, and even then their own baggage train failed to keep up with us. The first day we marched about 18 miles, a portion of the way over a very miserable road, and halted for the night at Whiteside station. The baggage train did not make its appearance and as a natural consequence, the regiment bivouacked, the men sleeping out of doors, and the officers ditto, on the ground with their feet towards a blazing camp fire. The 26th Wis. are at Whiteside. They are a part of the 11th A. C., and enlisted originally "to go and fight with Sigel." We passed the celebrated nick to Jack cave at Shell-mound and could plainly see the ruins of the salt petre works erected by the "rebe." Shellmound derives its name from the heaps of small shells, bivalves and univalves, which are scattered plentifully around, the mounds resembling much in size and shape the Indian mounds in Wisconsin, and probably thrown up by a similar race, for purposes unknown.

We lay at Whiteside nearly all day on the 12th waiting for our baggage to come up, and as soon as it was near at hand moved on eight miles, and slept the second night without tents. The third day we entered Chattanooga, following the road that winds around the base of Lookout mountain. It is a hard road to climb under favorable circumstances, and charging up the side of the mountain was one of the grandest achievements of the war. The more I think of it the greater the victory seems in my eyes.

Our "colored troops" created a sensation all along the route of our march. Soldiers would come flocking by hundreds to see us pass, and we were cheered vociferously several times. Men who have been in the army for any length of time cannot fail to see that this movement is a help to them, and if a man is sound, healthy, and hardy, he counts on whether he is white or black. The men looked well and like soldiers, marched well, and altogether presented a creditable appearance.

Last Saturday evening Major General Thomas, Major General Palmer, commanding 14th Army Corps, Brigadier General Johnson, commanding a division in the 14th corps, and Brigadier General Whipple, A. A. G., were spectators at our dress parade. They seemed well pleased, and General Thomas, through our Colonel, complimented the officers and men of the regiment on their proficiency in drill and the skillful manner in which they went through the "manual." A good chance that for copperhead sheets to pick into General T. miscellaneously. General Johnson says he is satisfied in all except one point, whether or no these men will fight. We were routed out last night, and when the long roll was being beaten, I never saw men fall in with more alacrity and spirit. "Straws show," etc., and I am well convinced that these colored soldiers will fight well and bravely.

Gen. Palmer says that a glance at our well polished and cleanly kept camp satisfies him that these men are good soldiers. Where there is so much unanimity of opinion, there must evidently be some ground for praise.

I send you a picture taken on the summit of Lookout Mountain, on the peak nearest the river. Below you see a part of the ground Hooker's glorious boys wrested from the rebels. At the foot of the mountain you see the Tennessee River. Chattanooga is straight behind the cliff, three or four miles away. Capt. Cressy is sitting behind me, his feet on the precipice. Capt. Romgen, Co. B, sits in front of me, and Lieut. Pear, Co. A, stands erect. If you can get good copies, I would like half a dozen, album size.

I do not think we will leave here, even when the enemy makes a forward movement. I know of no projected movements, and cannot send you any war news. My regards to all friends. Yours affectionately,
CLARENCE W. BAKER.

THE FOURTEENTH WISCONSIN.—On Saturday noon 291 men, about one-half new recruits, belonging to the 14th Wisconsin at the Soldiers' Rest, where they paid their respects to a bounteous dinner prepared by the ladies. This regiment passed through this city about the middle of last month, at which time its roster appeared in these columns. Since then the regiment has been recruited some 400 men, who after being paid will join the main body in a week or two. The boys go to Vicksburg, the theatre of their former exploits.—*Chicago Tribune.*

HONORABLE MENTION.—Major General Pleasanton thus speaks in his official report of the gallantry of the late lamented Brigadier General Elton Farnsworth, who was killed at Gettysburg while leading a brigade under General Kilpatrick:
"It was in one of these brilliant engagements that the noble and gallant Farnsworth fell heroically leading a charge of his brigade against the rebel infantry. Gifted with a quick perception and correct judgment, his comprehensive grasp of the situation on the field of battle and the rapidity of his actions, had already distinguished General Farnsworth among his comrades in arms. In his death was closed a career that must have won the highest honors of his profession."

A wag passing by a retailers shop, and seeing him measuring out molasses, called out to him, "Sir you have a sweet run of business."

GENERAL PARAGRAPHS.

—When a lady makes you a pair of slippers, she wants you to put your foot in it.

—Why are country girls' cheeks like French cany? Because they are "war-ranted not to wash and retain their color."

—An Irishman being requested to define hard drinking, said, "it was sitting on a rock and sipping cold water."

—An Irishman tells of a fight in which there was but one whole nose left in the crowd, "and that belonged to the try-kittle."

—Probably the wittiest saying in the language is Douglas Jerrold's definition of dogmatism—that it is puppyism come to maturity.

—"I think I now see a new feature in this case," as the lawyer said when his client informed him that he had plenty of money.

—"Taking an enemy into one's mouth to steal away his brains isn't so bad as wounding a friend. You had better take in an enemy than take in a friend."

—A wag seeing a lady at a party with a very low-necked dress and bare arms, expressed his admiration by saying she "out-stripped" the whole party.

—If you see a miserly hypocrite praying on a Mount of Olives, probably he is about to build an oil mill up there; if weeping by the brook Kedron, you may conclude he is about to fish for eels.

DEATH AT THE BALL.—The New Orleans Era of a late date relates the following incident:
"Of the many characters represented last night at the various balls given in different portions of the city, none were so prominent with such perfect naturalness and effect as that invisible monster, Death. The ghastly skeleton visited the ball given at Union Hall, in the Fourth District, and gliding amid the throng of gay maskers, was not at first noticed, but after looking around and scanning the revelers for a time, as if to fix upon some fair Inoogene whom he might claim for his bride, his search encountered the headful and joyous face of a Gasconne fruit dealer, and Death enfolded him in his happiness. Quick as thought, an arrow from his bow was sped, and the poor *futuro* fell dead upon the floor of the ball room, even while the quick wheeling round in the giddy waltz. The excitement was great, and consternation sat upon every face, as the thoughtless dancers gathered to look upon the face of the dead. But the body was removed, and on with the dance was the very thing that rushed all thoughts of Death and his victim. The deceased was a young man, who was engaged to be married, and had attended the ball with his sweetheart, but in the excitement of the dance he burst a blood-vessel, and died in a few minutes. His name is Francois Domidieu."

WEALTH OF NOVA SCOTIA.—The Nova Scotians are beginning to wake up as to the wealth of the mineral resources around them. The Halifax *Reporter* of February 2d, under the head of "Local Matters," has the following significant paragraph:
"We understand that the recent returns from the gold districts in our province show an astonishing gain in product—the result of the indomitable energy of a few American capitalists who came here with a determination to develop the hidden resources of Nova Scotia, by a liberal outlay of capital, and the substitution of improved machinery and chemical appliances recently discovered by scientific gentlemen from Massachusetts. Two companies, with capitals of \$500,000 each are in process of organization at Sherbrooke and Waverly, and the crusher on one of these locations has been running night and day for the last week. Quartz of unusual richness having been discovered on the property, it is now promising a sure and handsome income on the amount of money invested."

A correspondent of the Providence *Journal* vouches for the efficacy of ice as a cure for diphtheria, croup and all inflammation of the throat. The manner of application is as follows:
Break up a small lump of ice in a towel and lay the pieces in a bowl. Take position slightly inclined backwards, either in a chair or on a sofa. Proceed for half an hour with a tea-spoon to feed yourself with small lumps of ice, letting them dissolve slowly in the back part of the mouth or the entrance of the throat. A single such application will often break up a common sore throat, which otherwise would have a course of two or three days. In case of a bad sore throat, use the ice frequently and freely. In case of ulceration or diphtheria, keep a small lot of ice constantly in the mouth.

THE SHINGLE BUSINESS IN MICHIGAN.—The following statistics will give some idea of the shingle business in the Saginaw Valley: A Stevens & Co., Port Huron, have two machines, which cut in 1863, 7,000,000 run total capacity. B. Howard, Gooding & Co., Saginaw City, cut in 1863, 2,000,000, capacity, 5,000,000; they also have heading works, which cut 200,000 sets, and are adding cloudband machinery. A. B. Payne, East Saginaw, cut in 1863, 2,000,000 shingles; machinery since removed. Hilder & Robinson, Bridgeport Centre, cut in 1863, 2,000,000; capacity, 5,000,000. D. F. Foster, Bridgeport Centre, cut in 1863, 1,500,000; capacity, 2,000,000.

SERIOUS ACCIDENT to Hon. E. W. McNitt.—Hon. E. W. McNitt, member of the Assembly from Columbia county, met with a serious accident on yesterday. He had been in Camp Randall, and while alighting from the carriage on his return, the carriage steps gave way, and he was thrown heavily on his left leg, producing a fracture below the knee. The fracture has been successfully reduced, and he is now as comfortably as could be expected. The surgeons say, however, that he cannot leave his bed for two months.—*Madison Journal.*

QUOTAS UNDER THE NEW CALL.—We hear that advices from Washington are expected by this afternoon's mail, giving the quotas of the several Congressional Districts of the State, under the last call for men, together with full explanations on the subject of credits. The quotas for towns and wards will be made out and published with all possible dispatch.—*Madison Journal.*

SCHOOLS IN CHATTANOOGA.
NAMES OF TEACHERS. WHOLE NO. OF PUPILS. NO. PRESENT.
Francis M. Bates, 30, 22
John R. Johnson, 30, 22
Laurie L. Kelly, 30, 22
Wm. Jones, 30, 22
Catherine Sullivan, 30, 22
Geo. Hubbs, 30, 22
Mortimer F. Parks, 30, 22
Alvin C. Jones, 30, 22

The school house in the village of Clinton Junction is the best in this superintendent district. It is a large two story building with one wing and contains three rooms, each capable of seating sixty pupils. Its desks &c., are models of taste and utility. The school here has three departments, higher, intermediate and primary, under the charge respectively of Mr. Bates, Miss Folsom and Miss Estelle. Each of these seem to be in good condition, and all together afford superior educational facilities. This is owing in a great measure to the fact that this is a graded school, and can, therefore, give a longer time for the instruction of each class. Much praise however is due to the industry and faithfulness of the teachers. The principal especially, has earned and receives the confidence and esteem of the pupils and patrons. In his department there are some of the classes of the high school and academy.

None of the remaining teachers have failed to give general satisfaction, and some exhibit marked ability. Mr. Jones is decided and self-reliant. Mr. Hubbs excels in scholarship and Mr. Parks is a superior manager.

ALBERT WHITFORD,
Co. Supt. of Schools, Dist. No. 2.

INSURE WITH THE MUTUAL LIFE INSURANCE COMPANY OF WISCONSIN.—It is the Best Company for Western Men. The reasons why this is the best Company, are: That it is a Western Company, made up of and managed by Western men, doing all or nearly all its business in the Northwest, and concentrating in this one Company a superior class of risks, mostly of young men, or men in the prime of life, and they selected with as great care in regard to eligibility to Life Insurance, as are the risks of any other company.

It is true that the Company has neither the age nor the accumulations of some eastern companies, but is gaining the latter very fast; it is vigorous for one of its age; it is doing a large business, having issued 637 policies in the months of December and January just passed, and is doing its business as economically as the same can be done anywhere. It has for its guide, the experience of all older companies, and among its managers some of the best business men in the northwest.

This is the first successful effort ever made to build up a similar institution in the West, and it should be the pride, as it certainly is the interest, of every business man in this section of the State, to identify himself with its growth.

This Company issues non-forfeiting policies, upon which premiums are paid in five or ten annual payments. These non-forfeiting policies are very desirable, as they guarantee to the policy holder the benefit of all the money that he pays into the Company, and also enable him to pay his premiums for the whole of life while he is young, or at an early period, thus relieving him from the burden of payment in old age. Insurance upon this plan, (as well as on all other policies that this Company issues) become due and payable at death, should death occur before the ten years expire.

It also issues the endowment policy which becomes due and payable to the party assured at a stated age specified. These latter policies are becoming quite popular, and are particularly desirable for young men.

OUR MORNING DISPATCHES.

Rebel Reports From Gen. Sherman!

OUR ARMY REPORTED FALLEN BACK!

FOREIGN NEWS!

THE DANES RESOLVED TO FIGHT!

Earl Russell on Indemnity!

Army of the Potomac Skirmishing!

Gen. Bragg to be Commander-in-Chief of Rebel Forces!

FROM THE SOUTH.

Fortress Monroe, Feb. 20th.—Richmond papers have the following:
ATLANTA, Feb. 20th.—The Yankees have left Pontiac. We have lost many officers and men. Sherman's advance has reached Pearl River.

DALTON, Feb. 26th.—The enemy have disappeared from our front, retiring towards Chattanooga. Gen. Wheeler is in pursuit. Gen. Longstreet has withdrawn his forces to a point not prudent to mention.

GREENSBORO, Feb. 27th.—Gen. Jones captured 250 of the enemy, 13 negroes and five mules. Two Yankee mounted regiments, supported by a division of infantry, attempted to flank our left and occupied the Gap three miles from Dalton on the night of the 25th. Smith's brigade drove them out. Our loss in wounded was 25, including Col. Curtis, of the 14th Georgia.

On Thursday, the 25th, the enemy fell back 25 miles. They will probably not make a stand this side of Chickamauga. All signs of a general engagement have failed.

Gov. Brown, of Georgia, has issued a proclamation convening a special session of the Legislature on the 10th of March.

FROM EUROPE.

New York, March 1.—The steamer Bremen, from Southampton on the 18th, has arrived. The Canada arrived out on the 17th. The City of New York arrived out on the 18th.

Copenhagen journals say the German account of the Owersa Bells engagement is untrue. The Danes had only 3,000. No fighting took place at Flensburg.

The Prussian Council has resolved to devote the whole strength of the Nation to recover Schleswig.

Prussia will not consent to leave Alsen to the Danes.

The allies attacked the Danish entrenchments at Duppel. Mortars were placed to shell the Danes.

The Prussians occupy Frederick's Fort at Kiel.

In the Federal Diet the Oldenburg representative protested against the march of Prussians through that State.

Augustenburgh had been proclaimed at Oppen.

A Prussian battery of heavy artillery had gone to Glucksburg, destined for Holmes. High gales were prevalent on the English coast. In the House of Lords, Earl Russell proved by comparison of dates, that the governments determination as to detaining Birkenhead Rams was not influenced by any representatives of Mr. Adams. In the House of Commons, Mr. Peacock gave notice of motion as to demand for compensation by United States for injuries done by Confederate cruisers. Earl Russell said in House of Lords as to claims for damages done by the Alabama, the Government considers itself in no way responsible for and no hopes is held out for changing the policy respecting this.

FRANCE. The Nord denies that a French army of observation is to be placed on the frontier. The *Patric* asserts that Austria was willing to accept the armistice on condition that the Danes would evacuate Duppel and Alsen. Prussia refused. The Sixth army corps will be mobilized and quartered in Danzig, Bavaria.

Parliament resumed its sitting. The army of the national guards is being hastened. War materials continued being forwarded to Ancona, Bologna.

AUSTRIA.—The Reichswacht had closed. The emperor said his mission was peace notwithstanding the endeavors of Austria to maintain a conciliatory influence and war had broken out between Germany and Denmark. In conference with the federal diet, I have, as a German Prince, taken part in federal execution, and in concert with the King of Prussia, Schleswig is occupied as Dodge.

FROM MEXICO.

New York, Feb. 29.—A New Orleans letter to the *World* says: "Junco had reached Tamaulipas, and was preparing to yield up all the country to the French."

"It was reported that the French had shot the Archbishop Labastida and Bishop Barrajas, but the report was not credited."

WASHINGTON, Feb. 28.—It is understood that the Government is well satisfied that Gen. Sherman is at Selma, Ala. He did not intend to go to Mobile.

AFTERNOON DISPATCHES.

REBEL NEWS ABOUT SHERMAN!

Details of the Battle in Florida!

FROM THE SOUTH.

New York, March 1st.—The Richmond *Examiner* says now that Sherman's force is dispersed or withdrawn, there appears but little anxiety as to anything Farragut may accomplish.

New York, March 1st.—Details are published of the late battle in Florida. Our force was 4,000 infantry, 300 cavalry and two cannon. The enemy's force is reported at 13,000, posted between swamps, protected by earthworks and rifle pits. The report that no skirmishers were thrown out is untrue. After our defeat we retreated in good order. The rebels were aided by Gen. Gardner, of Port Hudson fame.

Gen. Dodge arrived at Jacksonville and would take charge of the defenses there. There is no confirmation of the reported arrest of Gen. Seymour. Probably untrue.

Advices from Bombay, January 29th, states that the rebel steamer Alabama was off the west coast of India.

ARMY OF THE POTOMAC.

WASHINGTON, Feb. 29.—*Tribune's* Special.—The latest information from the army, is to 10 o'clock, Monday morning. No battle has occurred between the opposing infantry forces. There was some skirmishing on our right Sunday but nothing of any account. It is evident that Lee does not intend to leave his entrenched positions to fight unless compelled by Meade to do so. Stirring news is expected perhaps to-morrow.

The *Tribune's* Washington letter states that General Logan's cavalry, from Huntsville, joined Sherman at Selma.

The Richmond *Examiner* of the 27th says: Gen. Takefere left Savannah on the 22d, and assumed command of all forces in Florida.

Gen. Bragg is assigned to duty at Richmond, and under the direction of Jeff. Davis is charged with the conduct of military operations in the armies of the Confederacy.

FROM GRANT'S COMMAND.

NASHVILLE, TENN., Feb. 29th.—The news of a Federal reverse is withheld at headquarters here. Scouts just arrived make no mention of it. They say all is going on well in Gilmore's department. Harder certainly is not there.

Four divisions of Johnston's army have gone to reinforce Polk. All of Forrest's and Morgan's cavalry are after Sherman's rear.

All was quiet along the front yesterday. Our forces are at Tunnel Hill, and the rebels at Dalton.

Longstreet's Cavalry has been transferred to Knoxville. Schofield is forty miles from Knoxville. Longstreet is probably getting out of Tennessee.

The 9th Ohio cavalry passed through here yesterday, and attracted great attention by their fine appearance.

In several counties in Middle Tennessee rebels who have not taken the oath are running for county offices, and the secessionists are organizing to support them. Much apprehension is felt by the straight out Union men, who are disposed to consider the election as premature, and giving the rebels a chance to form a political organization.

CUMBERLAND GAP, Feb. 29.—Information, deemed reliable, says that our forces have reached Morristown.

Maj. Berry, of the 11th Tennessee Cavalry, arrived from the vicinity of Rogersville, reports that Longstreet's forces are going east at double quick time, on each side of the Holston River.

CINCINNATI, Feb. 29, 1864.—The Commercial to-day has a special correspondence detailing the operations south of Chattanooga.

Up to Friday night the forces under Gen. Palmer had advanced 20 miles and drove the enemy steadily until we arrived in front of Dalton, where the rebels occupy an almost impregnable position. Our advance was made in considerable force, but no heavy fighting had occurred. Artillery was employed on both sides, and casualties in each army are about 300.

The indications are that the force of Gen. Thomas in front of Dalton will be speedily and largely increased, and that the rebel Gen. Johnston must give ground or risk a general engagement.
